

**ESMODIAN CREATIVITY ON DISPLAY AT THE TRANOÏ SALON FROM
FEBRUARY 28th TO MARCH 2nd 2020**

Press release from February 5th 2020

The international trade show TRANOÏ will launch its next Parisian event during Fashion Week, held between the Bourse and the Carrousel du Louvres. With a Womenswear and Accessories selection rich in designers, the show aims to be a reference for cutting edge and contemporary fashion. In an effort to highlight the designers of tomorrow, the TRANOÏ show invited ESMOD to exhibit a selection of its students' creations revolving around "casual" clothing in a dedicated space in the heart of the Palais Brongniart. Five students from the class of 2019 were selected for their themes that are close to what the trade show has to offer, in a style that encompasses both street and futuristic styles:

- Petyia SHOPOVA, collection Evolution I Human Design
- Gwendoline CORREIA, collection Urban Lines
- Zhefan JIANG, collection ZFAN
- Béatrice Engel, collection Log-Off
- Andrea EPALLE, collection Homme

ESMOD is proud of our partnership with the TRANOÏ trade show, which offers our graduates exclusive exposure to fashion professionals from all over the world who come to find the designers of tomorrow.
